Ideal age group: for all ages

# VOR 7120 WATER JOURNEY™ LABYRINTH

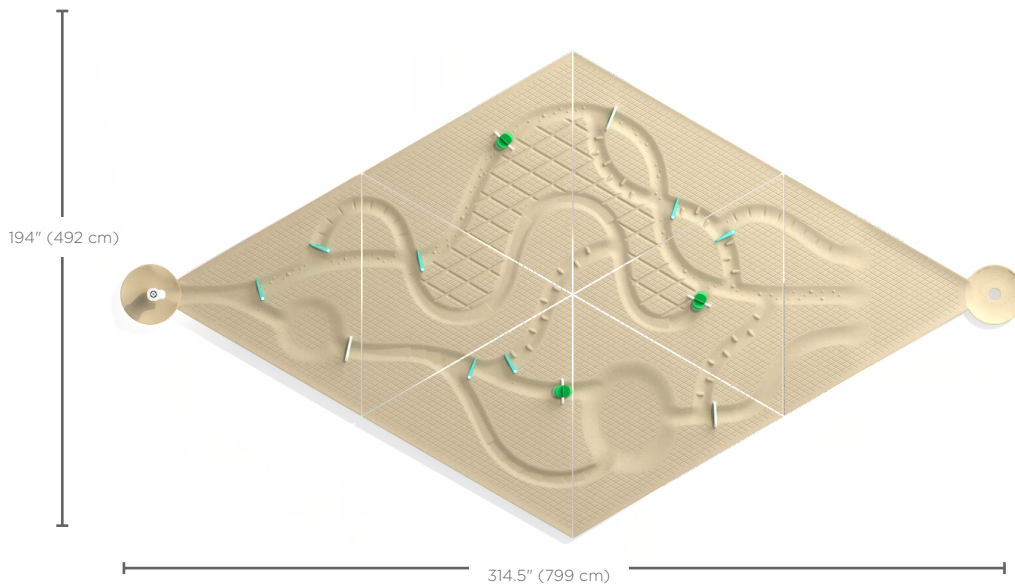

## PRODUCT HIGHLIGHTS

- The journey begins when children release the initial flood of water.
- The water ripples and cascades endlessly as it moves through the different formations.
- All the while, water gates, watermills and strainers let the little ones manipulate the current as they float objects downstream.
- This product can also be configured with the rest of the Water Journey™ collection for more play opportunities.

\*For optimal play, sun shade is recommended.
